Brief introduction of your research experience:				
<p>Nur Khairiel Anuar joined the Department of Logistics and Transport, Universiti Utara Malaysia in 2010 following six years logistics and transport systems experience with industry. His roles there included corporate research, driver behaviour and road safety research and management, road facilities design, airport landside development, logistics development and operational duty management. He graduated from Cranfield University, UK with a PhD in Transport Systems and his research is centred on road wayfinding design, driving behaviour and safety. He studied for his MSc in Transportation Planning at Universiti Teknologi Malaysia, and first degree at Universiti Utara Malaysia. Currently, he is a Deputy Director of Centre for International Affairs and Cooperation (CIAC), Universiti Utara Malaysia since January 2019.</p>
